

EXPERIENCE

2023–2024

Microsoft, Software Developer

- Designed UX and implemented new features (TypeScript/React) for Microsoft Teams, including Copilot, slash commands, read receipts, and federated chat, reaching 100M-1B users
- Built automated end-to-end testing (Playwright) for early bug detection in Teams client, driving cross-team changes involving Microsoft Edge
- Led accessibility-first design through Teams client improvements to screen reader behaviour and keyboard navigation

2020–2021

Amazon Vancouver, Software Developer

- Launched promotion recommendations (100M-1B products) for new Amazon marketplaces including Brazil, Turkey, Netherlands, and Sweden (1M–10M sellers)
- Enhanced automatic deal creation features (Apache Spark/Scala), singlehandedly generating additional \$10M–100M in revenue
- Led the design and development of new service (AWS/Elasticsearch/Kotlin) and UI (TypeScript/React) for managing promotions, for 1–10K users
- Improved machine learning models for promotion demand forecasting and promotion quality prediction on 1B–10B products

2017–2019

UBC mHealth Research Group, Web Developer, NLP Researcher

- Developed front-end web app (TypeScript/Angular) for analysis of patient-centred health communications to secure \$150K in research funding
- Refactored and automated scripts (Python/MATLAB/Perl/Bash) for text mining, topic modeling, and sentiment analysis used in NLP API
- Designed interactive user interface (D3.js) to compare quality of topic modelling methods (LDA, NMF) with knowledge transfer from domain ontologies published in [VIS 2019](#) as *OCTVis: Ontology-Based Comparison of Topic Models*

2016–2018

UBC Computer Science, Teaching Assistant

- Planned and led tutorials, office hours, and evaluations for courses, including: *computer graphics, computer vision, algorithms, software engineering*

LEADERSHIP & PROJECTS

2020–present

Galactic Trendsetters, Author, Director, Editor, Web Developer

- wrote, edited, and produced interactive puzzles for [MIT Mystery Hunt](#) (2021) and [Galactic Puzzle Hunt](#) (2020, 2022, 2023, 2024) for 3-5K players

2018

PyeongChang Olympics, Team Canada Volunteer

- Set up athlete performance centre and curated media content for Team Canada

2015–2016

UBC A Cappella, Musical Director

- Arranged songs for singers and led groups to perform at competitions and concerts

EDUCATION

2016–2019

University of British Columbia, Vancouver, Canada

M.Sc. in Computer Science

2012–2016

B.Sc. in Cognitive Systems: *Computational Intelligence and Design*

SKILLS

JavaScript/TypeScript, Vue/React/Svelte, HTML/CSS, AWS/GCP/Azure
Python, Java, Scala, Go, Kotlin
Adobe Suite, Figma, Unity/Godot, WebGL/OpenGL, D3

INTERESTS

Competitive puzzling, interactive storytelling, music, languages
